DECLARATION OF CONFORMITY

No. 001/AURA/PPWR

1 **Product:** Packaging kit for AURA emergency lighting luminaires

2 **Name:** Intelight sp. z o.o.
Address: ul. Gwiaździsta 19, 01-651 Warszawa, PL

3 This declaration of conformity is issued under the sole responsibility of the manufacturer.

4 **Description**

Packaging kit for AURA emergency lighting luminaires:
- 01. Collective packaging, cardboard
- 02/03/04. Unit packaging, cardboard
- 05. Cardboard instert
- 06/07/08. Protective packaging, plastic
- 09. Corner protectors, stabilising insert, plastic

5 The subject of this declaration conforms to the relevant requirements of Regulation (EU) 2025/40 of the European Parliament and of the Council of 19 December 2024 on packaging and packaging waste (PPWR), in particular the requirements concerning:

- substances in packaging – Article 5 PPWR, in terms of compliance with the heavy metals concentration limit: The total content of lead (Pb), cadmium (Cd), mercury (Hg) and hexavalent chromium (Cr(VI)) in the packaging kit for AURA emergency lighting luminaires does not exceed 100 mg/kg, in accordance with Article 5(4) PPWR.
- recyclability of packaging – Article 6 PPWR, in terms of facilitating mechanical recycling through the use of independent main mono-materials (paper, LDPE, EPE) that are easy for the end user to separate.
- minimum recycled content – Article 7 PPWR: not applicable during the transitional period; the quantitative requirements concerning the mandatory share of recycled content in plastic components enter into force on 1 January 2030 and do not constitute a conformity assessment criterion as at the date of issue of this declaration.
- bio-based feedstock in plastic packaging – Article 8 PPWR, not applicable
- compostable packaging – Article 9, not applicable; the elements of the kit do not belong to the specific categories of packaging for which the Regulation provides for a mandatory form of industrial or home composting.
- packaging minimisation – Article 10 PPWR, in terms of limiting the weight and volume of individual packaging components to the minimum necessary to ensure the safety and protection of the packaged product, without the use of unnecessary empty space.
- reusable packaging – Article 11 PPWR, not applicable – single-use packaging
- packaging labelling – Article 12 PPWR, in terms of harmonised labels facilitating separate waste collection by consumers, in accordance with the deadlines and formats set out in the EU implementing acts.

6 The conformity assessment was carried out on the basis of the requirements of Regulation (EU) 2025/40, technical documentation, material specifications, and information and declarations from the suppliers of packaging components.

7 No notified body was involved in the conformity assessment.

8 **Additional information**

– This declaration applies only to the subject specified in item 4 and is drawn up as at the date of its issue. In the event of changes to the design, materials, properties or suppliers of packaging components that may affect conformity with the PPWR requirements, the conformity assessment will be carried out again and, if necessary, this declaration will be updated.

- Supplementary documentation is provided in Annex A to this declaration.
